WORKSHOP APPROVAL STATEMENT

No. REC291824XG

Enclosure - Page 1 of 2

Polyamide Products for cable bundling, -fastening, -marking and protection / Polyamide Injection Mouldings

Scope of Approval

The manufacturer is developing and fabricating polyamide products for bundling, fastening, marking and for the protection of cables and cable lines in various types and series. The fabrication process includes polyamide injection moulding as well as the fabrication and machining of the relevant casting moulds and tools.

This Approval is limited to the afore mentioned Place of manufacture in Tornesch / Germany.

General conditions for the statement validity

The products are to be produced, inspected and tested in compliance with the Quality Control Plans / Inspection and Test Plans (Q.C.P. / I.T.P.) in accordance with the applicable RINA Rules. The names of the personnel appointed by the Manufacturer as responsible for any phase of the production and control process is to be clearly stated on relevant Q.C.P. / I.T.P.

The validity of the present Statement is subjected to the satisfactory result of the intermediate audits and the Manufacturer premises, carried out according to the table included in this attachment. RINA reserves all the rights to perform unscheduled audits.

Any modifications to the initial conditions (e.g. relevant to design characteristics of the product, production and control procedures, suppliers of main components) are to be promptly communicated to RINA which reserves the right to require additional assessments.

In any case, RINA Surveyors are to be allowed to witness during the performance of production and control activities, upon their request.

RINA may suspend or withdraw this Workshop Approval Statement in the case of modifications to requirements or conditions for initial admission.
